

We Save You Time

You only need one Aluminum Supplier

Besides saving time, yours, we are your most competitive edge for 6061 plate, sheet, bar, shapes and tube in Southern California and Arizona.

- **Extensive inventory - one stop shopping**
More stocked product shapes and sizes than ever!
- **Competitive pricing - fewer calls**
One call gets you competitive pricing!
- **Custom extrusions - less processing**
Save processing time and money.
- **Metal contracts - avoid risk**
Lock in pricing during times of market flux.
- **Hold & release programs - improve cash flow**
Let us store the large order and deliver as needed.
- **Precision sawing - less machining**
When a band-saw cut just isn't close enough.
- **Consistent quality products - when only the best will do**
We work directly with the largest US-based aluminum mills.
- **Rush processing - need it now?**
Same day will-call or next day delivery of your cut material

Our philosophy is that one call should fill all your aluminum needs – we carry an extensive inventory in six locations so we can get the metal in your hands immediately. And if we don't have it, we'll get it for you.

We Stock Aluminum in:

- Rod & Bar
- Shapes
- Tube
- Pipe
- Sheet & Coil
- Plate
- Cast Ground Tooling Plate

Mill Direct Products

We work with the best Aluminum producers globally because we know how important quality Aluminum is to your business. If you need technical input, let us know, and we'll bring our mill reps to your business. We receive shipments daily from the following domestic mills:

Tomorrow or in two hours!

We know that your job is more efficient if your metal can be cut or sheared before you get it. That's why we have top of the line equipment, at all six locations, to offer precision sawing, production cutting and shearing. We will deliver processed material the next day or you can pick it up the same day at our Will-Call window.

We're successful selling Aluminum because we create value - we save you time!

- Next day delivery
- Same day pick up in will-call
- Retail / Will-Call open six days a week
- Cutting, sawing & shearing of metals
- Aluminum purchasing specialists that act as an extension of your buying process to locate hard to find items

Broad Inventory

IMS is widely known for its broad inventory of stocked metals including Steel, Stainless Steel, Aluminum, Brass, Copper, Lead, Silicon Bronze and Bearing Bronze in various sizes and shapes.

In addition, each of our locations feature expansive retail showrooms stocked full of specialty items, including imported hand-forged ornamental iron, decorative brass & stainless steel railing systems, patinas, welding supplies, educational books and much more.

Custom Extrusions & Metal Contracts

Our customers save thousands of dollars and ample production time by taking advantage of a custom extrusion. You can use one of the thousands of standard dies from our mill's libraries or work with mill experts to create a proprietary die that specifically meets your needs. Why not take advantage of bringing in a mill expert to further extend the quality of your manufactured products?

We are happy to set up metal contracts for those products that you order time and time again. With metal market pricing being rather volatile why not lock in a price for several months? We're in the inventory business so let us store and deliver your materials on an as-needed basis.

Industrial Metal Supply was founded as a scrap and surplus business back in 1948 in Burbank, CA. Norman and Sally Sherman delivered metal out of the back end of their 1947 Pontiac station wagon that served as their pick-up truck by day and the family vehicle in the evening. Today IMS, which is still family-owned, has grown to five locations, over 300 employees, 40 trucks & more than 400,000 square feet of warehouse space in California and Arizona.
